# **Mid-point evaluation**

## Time to assess how it's going so far

Evaluations enable a proper assessment of how the mentorship program is going, for both Mentor and Mentee. These questions will help determine your impressions of the mentorship experience so far, and if needed, can help to realign and readjust the process to better fit both parties.

This document is confidential, but should be shared with the *Mentorship coordinator*, who will proceed with a sense check that the experience is progressing successfully for everyone involved.
